

Talbros Marugo Rubber Private Limited Hose Plant Establishment

May 2014

Marugo Rubber Industries, Ltd.

Our joint corporation in India, Talbros Marugo Rubber Private Limited, has been decided to organize a secondary plant exclusively for manufacturing of the automotive rubber hose to meet the increasing demand of the existing customers, Japanese OEMs, aggressively promoting their local procurement. The expected completion date of the new production line is June of year 2014, followed by mass production initiation by the end of the same year to secure supply of the automotive rubber hose in addition to the vibration control parts already began the previous year.
